#### Plagiarism Defined

"You plagiarize when, intentionally or not, you use someone's words or ideas but fail to credit that person. You plagiarize even when you do credit the author but use his exact words without so indicating with quotation marks or block indentation. You also plagiarize when you use words so close to those in your source, that if your work were placed next to the source, it would be obvious that you could not have written what you did without the source at your elbow. When accused of plagiarism, some writers *claim I must have somehow memorized the passage. When I wrote it, I certainly thought it was my own.* That excuse convinces very few."
